

# BEER LIST

## Beech Blonde ☀️

4.6% - 18 IBU's - Light - Refreshing - Fun

Blondes have more fun! That's what you'll say when you're drinking this smooth golden ale. With a clean, honey flavor, this girl will give you all the honey you need. She'll relax with you on 5506' deck, but isn't afraid to get down and party all night at the Beech Tree. Our Beech Blonde is definitely a keeper, and just the companion you're looking for on this ski trip.

## Wee Heavy Bevvie Scotch Ale 🍷

7.5% - 27 IBU's - Rich - Caramel - Smooth

From one high country to another. We're taking notes from the fine brews out of the Scottish highlands, and with them we created our Wee Heavy Bevvie. Although it goes down easy, this beer is definitely a sipper at 7.5%. It can be found all over the mountain, but it is recommended to sit at the fireside and enjoy this beer slowly to truly enjoy the complexities that it offers. Within, you'll find layers of caramel, dark fruit and roast. So throw on a kilt and enjoy yourself a nice heavy bevvie.

\* Ask the bartender  
about our guest and  
rotating taps.

## 5506' Pale Ale 🌄

5.5% - 37 IBU's - Hoppy - Citrus - Elevated

Great views and great brews! Although it has an excellent supporting malt backbone, the showcase of this beer are the American C hops - centennial, cascade, and chinook - a prime example of the American Pale Ale style. Just like sitting on the sky bar deck, this beer will have you felling elevated! So say cheers while sipping on a 5506' Pale Ale at the 5506' Sky Bar while at 5506' elevation.

## Powderbowl IPA 🌲

6.5% - 70 IBU's - Tropical - Pine - Lit

Our Powderbowl IPA is one boned out brew. Its smooth bitterness is like nailing a 5-0 grind, not like those other IPA's whose bite feels like the last time you bailed. This is all complimented with a huckfest of pine, citrus, and tropical hops. If you're still in the mood to get lit after you've packed up the board, just ask for the pow!

## Patroller Porter 🍷

4.5% - 27 IBU's - Roast - Coffee - Relax

Nothing beats sipping on a coffee after a few cold runs. Reminiscent of your favorite winter warmer, our porter will be perfect whether you're drinking it out of a pint glass or a mug. With its roasted complexity, this beer is a coffee lover's dream brew. So when you're ready to kick off the skis, ask for a Patroller Porter and you'll say it's good to the last drop.
